

Baskaran Chidambaram

Objective:

I would prefer a technically challenging job that demanding innovation and thinking. Also seeking a challenging career that encourages continuous learning, updating skills and applying the learned skill for the growth of the organization.

Technical Skills:

RPA Tools	Automation Anywhere, Blue Prism (Beginner), UiPath (Beginner)
Programming Language	Visual Basic Script, Java Script, Nodejs, Python
Database	MS-SQL Server 2012, 2014 and Access
Software Development Methodology	Agile Methodology
Tools	JIRA, HP ALM

Strength:

- Dedicated team player, Innovative thinking & Work Ethics.
- Quick learner, flexible and versatile to adapt to any new environment and work on any project.

Work Experience:

- Currently working as a Junior Software Engineer in **Wipro** - since November 2016 to present.

Experience in RPA:

- Experienced in RPA tools like Automation Anywhere to design, develop and deploy automations for the clients globally.
- Support the development and maintenance of the project schedule based on individual as well as project team members.
- Responsible for building projects using Automation tools to automate IT/Business Process end to end and developing cost efficient tools that are bundled with operations to deliver the process.
- I had successfully delivered multiple projects in Banking sector. Deployed RPA Solutions - which involves process Reengineering using core workflow principles that are efficient, well Structured and easy to understand.
- Providing technical leadership during the solution implementation. Performance assessment, tuning and helping in resolving critical issues.

- Work within project planning constraints, communicating any identified project risks and issues to the delivery/project manager accordingly and providing inputs to the change control process.

Project 6:

Title	689 - PW & FT Payments
Organization	Confidential
Duration	Dec 2017 - Present
Domain	Banking
Environment	Web and Java Application, Citrix, Microsoft Excel, MS-SQL Server
Team Size	5
Description	This Project Involves the automation process of submitting transactions based on various conditions across 9 different countries in Java Application and finally generating report and sharing to the end User. AHT Time was reduce from 6 Min to 4 Min for each transactions and quality was improved from 80% to 98% after implementing RPA.
Role	Team Lead
Responsibilities	<ul style="list-style-type: none"> • Used AA tool to develop the application • Involved in creating database development. • Involved in creating the AA Task to Master all countries. • Created Documentation for handled Modules. • Created and Deployed Multi-bot to handle versatile volumes

Project 5:

Title	1050 Kenya Pay-link Process
Organization	Confidential
Duration	Aug 2017 – Nov 2017
Domain	Banking
Environment	Web, Java and Windows Application, Microsoft Excel, Citrix
Team Size	2
Description	This Project Involves the automation process to extract the dump of transactions which are pending in between open and authorized state. End to end dump are shared to end user for further actions. AHT Time was reduce from 20 Min to 15 Min and quality was improved from 85% to 98% after implementing RPA.
Role	RPA Developer
Responsibilities	<ul style="list-style-type: none"> • Involved in feasibility study. • Automated three process out of five using AA Tool • Involved in optimization of the Bot performance • Build a tight bonding with the client for effective delivery.

Project 4:

Title	134 LATAM Mailroom Process
Organization	Confidential
Duration	May 2016- Jul 2016
Domain	Banking
Environment	Web and Windows Application, Citrix, Microsoft Excel
Team Size	1
Description	This Project Involves the automation of process for web application with the input provided in excel with necessary validation multiple text files are created from excel and it is uploaded in web application to find out the negative count of each statement.
Role	RPA Developer
Responsibilities	<ul style="list-style-type: none">• Individual Contributor• Used AA tool to develop the application• Involved in creating AA Task with Exception Handling with Log files.• Interacted with the clients and getting the Requirements

Project 3:

Title	CITI BANK (KYC)
Organization	Confidential
Duration	Mar 2017 - Apr 2017
Domain	Banking
Environment	Web and Windows Application, Citrix, Microsoft Excel, MS-Access, API
Team Size	5
Description	This Project Involves the automation process of taking snapshot based on Bank Account Number of the User from Different Web Applications and downloading necessary files in various formats (Pdf, txt, Etc.) in Output Folder. AHT Time was reduce from 40 Min to 15 Min and quality was improved from 60% to 98% after implementing RPA.
Role	Tester
Responsibilities	<ul style="list-style-type: none">• Closely associated with the developer for testing the automated task• Understood the business requirement to enhance the performance• Tracked daily test cases

Project 2:

Title	Flexcube Madrid
Organization	Confidential
Duration	Feb 2017 – Mar 2017
Domain	Banking

Environment	Web, Java and Windows Application, Microsoft Excel, Citrix
Team Size	8
Description	This Project Involves the automation process of fetching necessary details from web application and initiating transaction in java application. SWIFT message communication is carried out.
Role	Developer
Responsibilities	<ul style="list-style-type: none"> Involved in checking Feasibility study in Technical Perspective. Automated single Process using AA Tool for Project Demo to Explain How Robots Work with Accuracy and efficiency.

Project 1:

Title	NOKIA OM (Order Management)
Organization	Confidential
Duration	Dec 2016 – Jan 2017
Domain	Telecom
Environment	SAP, Microsoft SQL Server, Microsoft Excel, Web and Windows Application
Team Size	12
Description	This Project Involves the Invoice, OD, OE, CDR and OE Change request processing from the Web and Windows Application. Every day vendor needs to process 1000+ invoices through ERP. The automated process reduces the AHT from 15 min to 5 min by using RPA. Over all 53% usage of Robot and 50% process efficiency.
Role	Tester and Production Support
Responsibilities	<ul style="list-style-type: none"> Involved in analyzing the success and failure rate of operations Creating reports based on various process and sharing it management for audit Created Stored Procedure for faster operation.

Educational Qualification:

Course	Institution	Board/ University	Year of Completion	Marks % / CGPA
B.Tech IT	SA Engineering College	Anna University	2016	7.7CGPA
XII	Elite Matric Hr.Sec.School	Matriculation	2012	82.33%
X	Don Bosco Matric Hr.Sec.School	Matriculation	2010	84.00%

Course & Certification:

- Certified Advanced RPA Professional in Automation Anywhere
- RPA Developer Beginner Diploma in UiPath

Personal Details:

Date of Birth : September 7th, 1995
Gender / Marital Status : Male / Unmarried
Father's Name : R.Chidamabaram
Mother's Name : C.Senthamarai
Languages Known : Tamil, English
Nationality : Indian
Current Address : No-1653, LIG-II TNHB,
AVADI,
Chennai-600054.
